Sustainability

Category	LEED NC&CI Credits	Description Summary
Indoor Environmental Air Quality	4.1 & 4.2	Low Emitting Materials: Adhesives & Sealants
Optimize Use of IAQ Compliant Products	EQ 4.3	Low VOC emitting materials

Applications

Altrofix 30 two-part polyurethane adhesive is recommended for the installation of Altro flooring on clean and dry subfloors, above, on or below grade.

Altrofix 30 is to be used with Altro sheet vinyl in wet or semi-wet areas or any floors containing drains.

Specifications

Altrofix 30 is sold in both one and two gallon units (part A mixes with Part B). Approximate coverage is 200-275 square feet per gallon.

For installation instructions consult the Altro install guide or adhesive label for full details.
