

Altrofix™ W39

two-part polyurethane adhesive

Features and Benefits

- Solvent Free Wall Adhesive
- Contains Low VOC's
 - Complies with (SCAQMD) South Coast Air Quality Management District #1168

Applications

Altrofix W39 adhesive is a two-part, solvent-free, polyurethane adhesive developed and recommended for the installation of Altro Whiterock wall panels over permanently, clean, dry and sound wall surfaces.

Altrofix W39 is recommended for non-porous substrates or areas with high humidity.

Specifications

Altrofix 39 part A mixes with Part B to form a one gallon pail of adhesive. Approximate adhesive spread rate is 1 gallon of adhesive per sheet of Whiterock.

For installation instructions, please consult the Altro install guide or adhesive label for full details.
