

Event

Step onto the Centiva Event Series which combines a variety of natural looks that are durable and easily maintained under heavy traffic. With a wide selection of wood and stone patterns, this series is not only affordable but emulates natural flooring products. All tiles and planks in this collection can be combined with Centiva's Victory and Contour Series.

A feature strip may be used when the appearance of a grout effect is desired.

EVENT
STONE

EVENT
STONE

All Event stone designs are available in 12" x 18" and 18" x 18" sizes. See page 7 for complete product information.

Event square tiles are recommended to be installed with one-quarter turn (tessellated) for best aesthetic appeal.

Products featuring linear design elements such as Sandstone, Okara Stone, Quartzite, and Travertine are available in both sizes but are well complemented in a 12" x 18" format.

EVENT SPECIFICATIONS

Standard sizes and surface textures help make the Event Series both easy to order and quick to ship.

Characteristics	Standards	Unit	
Floorcovering			Heterogeneous PVC
Colors			50
Total Weight		ft ² = 1 lb	Varies by size
Packaging		ft ² /carton	36 (6" x 36") 45 (4" x 36", 12" x 18", 18" x 18")
Performance Classification	ASTM F 1700		Class III Solid Vinyl Tile
Gauge	ASTM F 386	inches / mm	.120 / 3
Wear Layer Thickness	ASTM F 386	inches / mm	.030 / .76
Flexibility	ASTM F 137		Good
Dimensional Stability	ASTM 2199		Good
Residual Indentation	ASTM F 970 ASTM F 1914		Excellent
Flammability	ASTM E 648		Class I CRF>0.45
Slip Resistance	ASTM C 1028* ASTM D 2047 ADA Compliant		Very Good (*textures) Passes FTC Slip Resistant Classified Product
Smoke Density	ASTM E 662		<450; Good
Abrasion	ASTM D 3884		Excellent
Castor Chair Suitability	ITTS 205		Very Good
Color Fastness	ASTM F 1515		Very Good
Chemical Resistance	ASTM F 925		Excellent

Surface Textures: All Event products are produced in the surface texture stated in this brochure. The texture has been chosen for aesthetic appeal, and complements the tile or plank design.

Event Surface Texture Key:

- FR = Frost
- NG = Natural Grain
- QU = Quarry
- RK = Rock
- RU = Rustic
- TG = Third Grain
- WE = Weathered

Sampling/Color: Samples are cut from standard tiles and therefore may not correspond exactly to the pattern of the entire tile. Samples may vary slightly from actual production runs. For critical color match, please check actual production runs. Chainsets are available upon request. Colors shown in brochures are only as accurate as four color printing process will allow. Images shown in printed material are not to scale.

Decorative Options: All Centiva products can be supplied as Feature Strips and Keystones. Complete information can be found within the Centiva Floor Design section at www.centiva.com.

Standard Edge Treatment: Square Edge (SE). Slight Bevel (SB) also available upon request.

Installation Direction: The Event Series multi-layered square tiles may be installed with one-quarter turn (tessellated) or in one direction. However, for best design appeal and results Centiva recommends the one-quarter turn installation method. Rectangular shaped tiles should be installed in one direction.

Centiva also meets the equivalent characteristics of the European CE-Testing Standards.

Available Sizes:

Plank: 4" x 36" or 6" x 36"
Stone: 12" x 18" or 18" x 18"

Warranty: Centiva provides a Commercial 20 year Limited Wear Warranty and a Residential Lifetime Limited Wear Warranty on all products. For complete warranty, installation, and maintenance information, please visit www.centiva.com.

Cen-T-Tough™ is an advanced production technology that ensures a product will have a superior level of scuff resistance.

EVENT
STONE

Worldwide we know that industrial production must turn from its old ways. All companies must change and improve their methods and products in an environmentally conscious way. **The Centiva Green Way®** initiative was launched to meet those challenges.

We design and manufacture internationally recognized flooring products in a world class manner. That vision is only made complete with our commitment to the environment.

Why Centiva?

- Low VOCs – Centiva products are FloorScore® Certified and adhesives are GREENGUARD Certified
- Contains product specific pre- and post-consumer content
- Reclamation Program – Give your old floor a new life
- 100% Recyclable with zero production waste
- Can contribute to LEED® Credits
- Made in the USA (Contour & Victory)
- Durability is a top consideration of architects and designers when considering the green aspects of flooring
- Maintenance – Centiva requires significantly less maintenance than other flooring products

Search, evaluate, and document the environmental aspects of Centiva's products with our ecoScorecard site. Learn how Centiva can contribute to LEED® credits.
