RUBBER TILE + TREAD

A complete color system,
all in one place

FLEXCO[®]
AMERICAN-MADE FLOORING

Distinct Designs

RUBBER TILE + TREAD

Palettes, sizes and profiles
that make coordination simple

This is a color system created especially for commercial designers. A complete family of palettes, sizes and profiles that give you more freedom in every way. No more hunting down “that color you can’t find” or “that tile or tread you need.” There’s no searching. Just solutions. And they’re all right here. Match color, tone and profile for a completely coordinated look throughout a room or entire building.

Specify coordinating color for stair treads, risers, stringers and landing tiles.

- PVC-Free
- Phthalate-Free
- Red List Free
- Fungal resistant in accordance with ASTM G21 standards
- No anti-bacterial additives
- No coatings, finishes or sealers applied or required
- Lower lifecycle cost when compared to other resilient flooring
- Made in the USA from premium raw materials

FlexTones®

57 solid colors set you up for success.

FlexTones coordinate across tile, tread, wall base and accessories. It's perfect for healthcare facilities, airport terminals, retail stores and more.

Evolving Styles® Creative Elements

Unique colors and combinations that bring a new dimension of aesthetic appeal.

A beautiful selection of contemporary colors and combinations. Choose from a variety of rubber tile and roll options. You can also use FLEXCO Rubber Welding Beads for a seamless installation in areas with strict hygiene requirements like clean rooms.

SpexTones™

Speckled coloration ideal or high-traffic areas.

This palette coordinates with FlexTones and is designed to conceal dirt and subsurface irregularities. SpexTones add performance and durability while providing a wide range of color options.

Evolving Styles® Wood Elements

A distinctive wood look with the durability and comfort of rubber.

Available in an array of rubber tile and roll options, this warm and welcoming palette opens up your options for gymnasiums, all-purpose rooms and other active facilities.

Add a logo, emblem or intricate floor pattern with our custom cutting capability.

Discover the possibilities with Distinct Designs.

Get colors and patterns to match any design or application, all from one place. A logo, emblem or pattern can really make an entryway or main area stand out. Distinct Designs give you the flexibility to mix and match while maintaining a key color palette throughout a building. The best part? You know superior quality, safety and sustainability are covered, so you can focus on making your project stand out.
